RESOURCES
Support for your organization

The Cybersecurity & Infrastructure Security Agency works with public sector, private sector, and government partners to share information, build greater trust, and lead the national effort to protect and enhance the resilience of the nation’s physical and cyber infrastructure.

Protective Security Advisors (PSAs) are field-deployed personnel who serve as state, local, tribal, and territorial and private sector link to DHS CISA security and protection resources.

PSA Mission Areas include: Surveys and assessments, outreach activities, special event support, incident response, bombing prevention and awareness.

OPPORTUNITIES AVAILABLE THROUGH CISA

CISA ASSIST VISITS establish and enhance DHS CISA’s relationship with your house of worship. During an Assist Visit, PSAs focus on coordination, outreach training and education. Visits are often followed by security surveys using the Security Assessment at First Entry (SAFE) Tool, Infrastructure Survey Tool, or delivery of other CISA services.

The Infrastructure Visualization Platform is a data collection and presentation medium supporting critical infrastructure security, special event planning, and response operations.

Exercise Support options in planning, development and execution include seminars, workshops, table-tops, and full-scale exercises.
